PROJECT TITLE: Wood Burning Stove Installation Residence #5

LOCATION: Pfeiffer Big Sur State Park, Highway One

COUNTY: Monterey

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT: Install outlet through roof and ceiling and indoor wood burning stove in State Park Residence #5 at Pfeiffer Big Sur State Park. Work involves cutting an approximately 12 inch by 12 inch wide square hole in the ceiling; cutting an approximately 8 inch wide circular hole in the roof for installation of the ceiling box and pipe; and installing a triple wall pipe from the ceiling box through the attic and outside. On the roof the triple wall chimney pipe will be topped off with a cap with a spark arrestor, as well as two brackets mounted to the roof for stability. Weather stripping and flashing will also be installed around the base of the pipe. A standard 8 inch interior outlet will be placed in the southwest corner of the living room, allowing the stove to be positioned on a removable firebrick hearth at the minimum required distance from the wall in accordance with code standards. The residence is one side of a duplex that was originally built in 1933 as barracks for Civilian Conservation Corps enrollees. Impacts to historic fabric will be kept to a minimum and installation will be as reversible as possible.
